EXAMINER'S AMENDMENT

1. An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. Authorization of this Examiner's amendment was given in a telephone interview with Mr. Dan Altman on August 16, 2005.
3. The Specification has been amended as follows:
On page 23, line 9 please insert the following: (SEQ ID NOS:31-33) after the sequence "nX-C-X-X-C-X-X-X-X-(10-12)-C-X-X-X-C-X-X-X-C-nX".

EXAMINER'S COMMENTS

4. The amendment filed on July 29, 2005 has been received and entered.
The objections and rejections made have been withdrawn by virtue of applicant filing a response that amended or cancelled claims.
5. Note that claim 34 has been rejoined. The claim is directed to a method of using the product of claim 11, thus within the same scope as the elected invention.
6. Applicant is reminded to file corrected drawings based on the Draft person's review.

REASONS FOR ALLOWANCE

7. The following is an Examiner's statement of reasons for allowance:

The applicant has claimed an isolated or purified protein fragment having antimicrobial activity, wherein said protein fragment is a polypeptide consisting of the sequence, C-3X-CnX-C-3X-C (SEQ ID NO: 38 and 39), wherein n is 11 or 12, X is any amino acid and C is Cysteine (see claim 1 for example). A search of commercial databases did not produce any prior art that suggests or teaches the above claimed invention, because the cysteine spacing required by the claim is not taught by the reference; see for example Spencer et al. (WO91/19801A, December 26, 1991). The Spencer et al. reference discloses a sequence that is longer than the peptide recited in the claim, which recites, closed language. Thus, the claimed invention is novel and nonobvious over the prior art.

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

Conclusion

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hope A. Robinson whose telephone number is 571-272-0957. The examiner can normally be reached on Monday-Friday.
